# PACK2GO

TEAM 5: ANMOL KOUL, ARNAV MEJARI, OM KUMAR SINGH, SHWETA PATKI

The Idea

A community-driven food delivery platform where the Wolfpack shares orders, saves money, and earns rewards. Order together, save together!

Have you ever been in the flow, absorbed in learning... and then realised you're hungry? Our website, Pack2Go, looks for other students already going to an on-campus cafe, and asks them to order for you. If they're headed your way, they'll accept the order. Now you can eat your fill without having to lose your focus!

Stakeholders

- Primary
  - Student
  - Food Joint
- Secondary
  - NCSU Admin
  - Workers

**Howl for Food,
The Pack Delivers.**
